

Not Going Down

EZI

Not going down today
Somebody just tell 'em I'ma fight and find a way
'Cause I'm alive today
Someone better tell 'em I've arrived and I'ma stay

You're in my face, I cannot see
Truth is I'm stressed

I'm out of my element, my element
It's pushing me, I'm questioning everything
If who I am is who I am
I gotta stand even though I'm so uncomfortable

Not going down today
Somebody just tell 'em I'ma fight and find a way
'Cause I'm alive today
Someone better tell 'em I've arrived and I'ma stay

Feels like a test
God only knows I'm doing my best

While out of my element, my element
It's pushing me, I'm questioning everything
If who I am is who I am
I gotta stand even though I'm so uncomfortable

Not going down today
Somebody just tell 'em I'ma fight and find a way
'Cause I'm alive today
Someone better tell 'em I've arrived and I'ma stay

Not going down today
Not going down today
(Someone better tell 'em I've arrived and I'ma stay)
