

# Redemption

EZI

Damn I haven't washed my hair for days  
Another day I'm feeling lost  
Lock myself in now I lie awake  
Can't erase the pain you've caused

It's delicate it's how I'm made  
I use these moments to create  
Guess I'm an emotional wreck now  
Feel another let down  
Sometimes I wish I could escape

I guess it's just what I got  
No redemption for a weak heart (weak heart)  
When it break you take it real hard (real hard)  
Won't pretend to be what I'm not  
I guess it's just what I got (what I got)  
Guess it's just what I got  
Guess it's just what I got

If I could rewind to yesterday  
I'd eliminate you and restart  
'Stead in between these walls I hide away  
Can't illuminate the dark

It's delicate it's how I'm made  
I use these moments to create  
Guess I'm an emotional wreck now  
Feel another let down  
Sometimes I wish I could escape

I guess it's just what I got  
No redemption for a weak heart (weak heart)  
When it break you take it real hard (real hard)  
Won't pretend to be what I'm not  
I guess it's just what I got (what I got)  
(I guess it's just what I got)  
Guess it's just what I got  
Guess it's just what I got

Wake up it's a lighter day  
Feel the sun rays for a start  
Thinkin' it was just a phase  
See the hard days from afar  
Then the blue comes flooding my head  
And it hurts oh I cannot breathe in this choke hold  
Hit me and it's razor sharp

I guess it's just what I got  
No redemption for a weak heart (weak heart)  
(No redemption for a weak heart)  
When it break you take it real hard (real hard)  
(You take it real hard)  
Won't pretend to be what I'm not  
(Pretend to be what I'm not)  
I guess it's just what I got (what I got)

I guess it's just what I got

I guess it's just what I got  
I guess it's just what I got  
I guess it's just what I got
