

She's Back

EZI

I thought I knew her
I thought I knew her better

I thought I lost her
I thought I killed her forever
Gone with the summer
I thought I made her surrender
I thought the war was over
Was sure the war was over

But she's back
And out for some blood
Was gone in a flash
But never for good

Back from recovery
To finish what was started
Dirty and dusty
An old forgotten target
Hand on the trigger
I guess I made her guarded
But I thought the war was over
But this isn't over

'Cause she's back
And out for some blood
Was gone in a flash
But never for good

Bitch I'm back I'm desperado
Left a trail for me to follow
Didn't learn your lesson
Playing the assassin
Wishing I was dead when
You were just obsessing
Talk my shit feed my desires
You go low I just get higher
How's that independence
I come back with vengeance
Always coming back
