

# Stop

EZI

You and I spotlight on  
Making me a fool cause it's so far gone  
One last time and you're next  
You'll never have a shot if we play roulette

Your fantasize in my demise avoiding my eye contact  
My only advice

Just stop  
Don't think about it  
Fight me about it  
Cause it's never gonna be all you want  
Get mad about it  
Raise hell about it  
When you're lying through your teeth it's obvious, hilarious  
That you think you're gonna set me off  
But my advice is

My oh my look what you've done  
Feeling like a bitch when I need no one  
Lies on lies  
Biting my tongue  
Caught you with the bullet didn't know I had the gun

My fantasize in your demise keeping my eye contact  
My only advice

Just stop  
Don't think about it  
Fight me about it  
Cause it's never gonna be all you want  
Get mad about it  
Raise hell about it  
When you're lying through your teeth it's obvious, hilarious  
That you think you're gonna set me off  
But my advice is  
(You know I'd listen if I was you)  
Stop  
(You're not a friend to me)  
(You're fucking dead to me)

Play with my heart because you want nothing to do  
Told everyone it was me when it's actually you  
Say what you want don't care what you need  
It's a game you better drop

Don't think about it  
Fight me about  
Get mad about it  
Raise hell about it  
When you're lying through your teeth it's obvious, hilarious  
That you think you're gonna set me off  
But my advice is  
But my advice is
