

# Black Hole Hell

f.k.ü.

Welcome to Dr. Weir's creation  
A behemoth from another dimension  
State of the art interstellar terror  
Infinite space means infinite horror

Instantly it folds space  
A gateway to an unknown place  
A demon vessel with a curse  
The black in the gulf of the universe

They...  
They cannot avoid, the never-ending end  
They will be destroyed, transcend

Watch the crew on Lewis and Clark  
Heading for the darkest of dark  
Led to the slaughter like sheeps  
Going off the deep end, a quantum leap

They...  
They cannot avoid, the never-ending end  
They will be destroyed, transcend

Enter the home of the devil  
Into the womb of fear  
Enter a void of the evil  
Submerged in the darkest sphere

Confronting ghosts of the past  
Hallucinate, this hell will last  
Pain comes like a flash flood  
Rivers of fire and oceans of blood

They...  
They cannot avoid, the never-ending end  
They will be destroyed, transcend

Enter the home of the devil  
Into the womb of fear  
Enter a void of the evil  
Submerged in the darkest sphere

Into the black hole hell

Hallucinate  
It's their gruesome fate  
Only pain is real in this reality  
Mutilate  
Now it's too late  
They are lost and will face inhumanity  
Rip, tear  
It's fuelled by their fear  
Powered by their sheer insanity  
Kill, shred  
Their blood runs red  
Hell awaits for all eternity

Enter the home of the devil  
Into the womb of fear  
Enter a void of the evil  
Submerged in the darkest sphere

Into the black hole hell
