

# The Spawning

f.k.ü.

Fish!

Facing a wall of sharpened teeth  
Stripping the flesh to the bone beneath  
Bursting out of the bodies of the dead  
These creatures aren't easily fed

Mad scientists been crossing genes  
Creating the ultimate killing machine  
It will suck you dry like a vampire bat  
Beware of the flying piranha attack

A fish out of water  
Bringing the slaughter  
Mind the bite  
A pungent rancid stench  
Thug of the Mariana Trench  
Death is in the air tonight!

An ocean of corpses all badly chewed up  
Hungrier than ever they will never stop  
Beware of the unstoppable mutant strain  
A winged bringer of unbearable pain

A fish out of water  
Bringing the slaughter  
Mind the bite  
A pungent rancid stench  
Thug of the Mariana Trench

Swift, without warning  
Face The Spawning  
A sudden strike  
A pure aquatic dread  
You'll wish that you were dead  
Well... death is in the air tonight!

Fins!  
Teeth!  
Wings!  
Death!!!

A fish out of water  
Bringing the slaughter  
Mind the bite  
A pungent rancid stench  
Thug of the Mariana Trench

Swift, without warning  
Face The Spawning  
A sudden strike  
A pure aquatic dread  
You'll wish that you were dead  
Well... death is in the air tonight!
