

Don't Stop

Faber Drive

Don't stop, don't stop
Let's make this party rock

Won't wait until the weekend
It can't come quick enough
Tonight we're gonna get a little messed up
No, we don't need a reason
Just call up everyone you know-ow-ow-ow
We'll pack my El Camino
Drive it down on the beach
Crank up the tunes and sip a little JD
Don't need to complicate it
Just light it up and let it go-o-o-o
Here we go-o-o-o

Don't stop, don't stop
Let's make this party rock
Hands up, hands up
I love this feeling
We're gonna live the life
Let's tear it up tonight
Don't stop, don't stop
Until you scream in awww
Until you scream in awww

Don't wanna go to work no
Don't wanna go to school
Just wanna have a couple chillin' with you
Let's get this party started
Just light it up and let it go-o-o-o
Here we go-o-o-o

Don't stop, don't stop
Let's make this party rock
Hands up, hands up
I love this feeling
We're gonna live the life
Let's tear it up tonight
Don't stop, don't stop
Until you scream in awww
Until you scream in awww

Shout it out, shout it out
So that the world can hear you
Let it out, let it all out

Don't stop, don't stop
Let's make this party rock
Hands up, hands up
I love this feeling
Don't stop, don't stop
Let's make this party rock
Hands up, hands up
I love this feeling
We're gonna live the life
Let's tear it up tonight
Don't stop, don't stop

Until you scream in awww
Until you scream in awww
Until you scream in awww
