

NEVER GONE

Faber Drive

Gone gone gone gone gone
Never gone
Gone gone gone gone gone
Never gone

Yeah I go back in my mind
Before we gave up and lost the fight
Yeah it's been a few months gone by now
But I still think about you everyday
Yeah it got tough and complicated
We wanted to be the ones who made it
Now I'm standing here staring at the sunset
Wishing I could see your face
And I wonder if you feel the same

You fall for someone so hard it's bound to hurt
Photos in a box that I wanted to burn
They're the reason that I smile now
All the days that I feel down
All the things that I tried hard to forget
Looking back now got no regrets
Even though there's no you and me
Well maybe time but the memories are never gone

Gone gone gone gone gone
Never gone
No they're never gone
Gone gone gone gone gone
Never gone

Moments kill on a summer night
Whisper words that tastes like wine
Dreams have come and go through a lifetime
Like the wave you settled on the sea
Drift apart like you and me

You fall for someone so hard it's bound to hurt
Photos in a box that I wanted to burn
They're the reason that I smile now
All the days that I feel down
All the things that I tried hard to forget
Looking back now got no regrets
Even though there's no you and me
Well maybe time but the memories are never gone

You fall for someone so hard it's bound to hurt
Photos in a box that I wanted to burn
They're the reason that I smile now
All the days that I feel down
All the things that I tried hard to forget
Looking back now got no regrets
Even though there's no you and me
Well maybe time but the memories are never gone

Gone gone gone gone gone
Never gone
No they're never gone

Gone gone gone gone gone
Never gone
No they're never gone
Gone gone gone gone gone
Never gone
No they're never gone
Gone gone gone gone gone
Never gone
