Surrender

Faber Drive

When did this love become a war?
I don't know what we're fighting for
These angry words just leave us numb

We used to kiss into the night
Gentle hands in candlelight
I can't believe what we've become

I never thought it'd be this hard
Our love is build on battle scars
We stumble till we fall in love again

So take me, take me as I am
I'm trying, so try to understand
I'm never, never giving up on us
(Don't ever say surrender)
Don't ask me why we gotta keep on fighting
Fighting is to make it right
I'm never giving up on us
(Don't ever say surrender)

Surrender, surrender
Don't ever say surrender

Our truth is tearing us apart
Our words like bullets through the heart
It's time we lay these weapons down

I never thought it'd be this hard
Our love is build on battle scars
We stumble till we fall in love again

So take me, take me as I am
I'm trying, so try to understand
I'm never, never giving up on us
(Don't ever say surrender)
Don't ask me why we gotta keep on fighting
Fighting is to make it right
I'm never giving up on us
(Don't ever say surrender)

The best things in life
Are always, always worth fighting for 'em

So tell me
You're trying
You're never, never giving up on us
Don't ask me why we gotta keep on fighting
Fighting is to make it right
I'm never giving up on us
Don't ever say surrender

Surrender, surrender
Never giving up on us
Surrender, surrender
Don't ever say surrender
Surrender, surrender

Never giving up on us
Surrender, surrender
Don't ever say surrender
