

Lost it, paradise.
But I can't find my way back home to you.
I'm drifting, I'm lost out here.
Running out of oxygen slowly.
My feet won't move and i'm choking.
I need someone to come and rescue me.
So won't you be my savior, pull me out of this hole.
I'm in need of your rescue, feel like my heart is going cold.

So won't you be my savior (savior).
Savior (savior), savior (savior).
So won't you be my savior (savior).

Tracked it, paradise.
I'm searching for a light but I can't seem to find it.
I'm lost out here.
Standing through the darkness.
I think im losing my way.
Feeling surrounded by the clouds, please don't let me down. I n
eed someone to save me. Yeah.
So won't you be my savior, pull me out of this hole.
I'm in need of your rescue, feel like my heart is going cold.

So won't you be my savior (savior).
Savior (savior), savior (savior).
So won't you be my savior (savior).
