

# Touch

Fabian Mazur

What do I know about you  
Whatchu know about me  
We can be entangled bodies wrapped up in the mood  
What do you know  
What do you know  
We can just touch and go

Lay your head on my pillow  
Just one night and I will take your soul  
And I know you know  
We can just touch

We can just touch  
We can just touch  
We can just touch  
We can just touch  
We can just touch

Touch, just touch  
No pressure, for the lust  
Just buck, just buck  
Tryna work, for the bucks

Touch, just touch  
No pressure, for the lust  
Just buck, just buck  
Get buck  
Run the trap

I just wanna thank you  
For going through this whole album  
(Yea)  
You already know
