Makin' Love

Fabolous

I told her ill be there in a minute,
She knew imma take it down soon as I get it,
U can leave your hair in a mess,don't even get dress
Tonight we makin love
I told her lets stay home, she was with it
She know imma take it down soon as I get it,
U can leave your hair in a mess,don't even get dress
Tonight we makin love makin love

June 22, think I came in 20 seconds
I was watching honey peck it while she lay on tummy naked,
To the pase of the base and this cash money record,
She just drop, drop, drop, damn you manny fresh
But I got my thing together, told her she could bring whatever
Get some green, we could puff get the cream get the cuff
Baby even when I'm gentle, it might seem like its ruff
But if neighbors ain't complaining, you ain't screaming enough
And yeah they might hear as I'm slappin to the jewel
She said baby right there, do it rapid do it smooth
I said baby right where, kept tappin to the groove
She said nigga right there, imma slap you if you move

I told her ill be there in a minute,
She knew imma take it down soon as I get it,
U can leave your hair in a mess,don't even get dress
Tonight we makin love
I told her lets stay home, she was with it
She know imma take it down soon as I get it,
U can leave your hair in a mess,don't even get dress
Tonight we makin love makin love

Cant forget the feeling when you staring at the ceiling
And you cant catch your breath you just laying there chilling
Like 1 and then the 2,2 and then the 3,3 and then the 4
Damn I want some more
So I slam her to the floor, set the camera to record
Throw them legs up in the air, just like lamborghini doors
See we might have had some problems with the stamina before
Im no amature I'm sure, I cold ram into your sore
But I aint trying to hurt ya
Im jus trying to nuture
Them nigga just flurt to hit it and to hurt ya
What I'm throwin dity for, I'm trying to alert ya
But fuck that lay it down, let a nigga work ya

I told her ill be there in a minute,
She knew imma take it down soon as I get it,
U can leave your hair in a mess,don't even get dress
Tonight we makin love
I told her lets stay home, she was with it
She know imma take it down soon as I get it,
U can leave your hair in a mess,don't even get dress
Tonight we makin love makin love

Do you tell me that you had enough
Imma slow it down and imma speed it up
And I will not stop

Do it to you like a dude that aint got no job
I aint got nowhere to be so I dont gotta leave
Get the itis in the sheets imma eat and go to sleep
Then we wake up in the b, everything you do to me
Imma turn and do to you,
And then imma black and blue that thing (dance for me)
I love the way you move that thing (so nasty)
I look and say ohh that thing
Make me wanna sing a song (anybody every seen a)
Make em wanna sing along

So listen baby ill be there in a minute,
She knew imma take it down soon as I get it,
U can leave your hair in a mess, don't even get dress
Tonight we makin love
I told her lets stay home, she was with it
She know imma take it down soon as I get it,
U can leave your hair in a mess, dont even get dress
Tonight we makin love makin love

So I called baby girl up
And told her i fining to through there,
She like for want you ain't getting none
I said I ain't comin' to get none I'm coming to get some
She said you ain't going to get none unless you make love to me
I said make love what the fuck is that
