

Started Something

Fabulous

Understand me you fuckin with the family
You know who my man be
Niggas done started something
Ungrateful I see what the hate do
Even though we made you
Niggas done started something
If you try to play me crazy (crazy)
Niggas done started something
If you try to play me crazy (crazy)
Niggas done started something

You bit off more than you can chew
Ain't much more that I could do
Than go look for you niggas, I got a warrant for your crew
Ya'll done got me started, put me in this position
Pushed my buttons, put the key in my ignition
Nigga once the engine runnin', I'm coming to injure something
Fuck me like I'm sex, promise revenge is coming
Sometimes, can't wait for karma to get em back
And momma said if they hit you, you better hit em' back
See that's how I was raised, that's how I'm not phased
Cause I'm worth too much nigga, that's how I appraise
I done cut off the frauds, disappeared enemies
I'm not a fan of phony vibes, and weird energy
Even a friend of me, started hating on a G
It seem petty, like Bruce spelling his Kaitlyn with a C
Man I see it all, if he tazed me it wouldn't shock me
Dog I heard it all, if you Jay-Z you couldn't Roc me
Couldn't knock me, so they had to go another route
White sheets over you, for helping under covers out
Like Thanksgiving day, slide through your mother house
We gone pull them muffins out, blow a nigga stuffin out
Shorty you know nothing bout, finishing games
This the flow that blemish yo' name, deminish yo' fame
Boy your whole style is trash, your image is lame
I'll set yo' ass on fire, then extinguish yo' flame (Woo)
From start to finish, I finish then I start again
Ran into yo' broad again, I met her at the party inn
Fed her that bacardi then, spread it like acordians
Then she made it clap for me, better than a audience
She say you keep calling, tryna get her into arguments
How you was cool, but now you sweater like a cardigan
Once you get a real nigga, get rid of the fraudulent
I can handle that bay, tell me where he at baby

Understand me you fuckin with the family
You know who my man be
Niggas done started something
Ungrateful I see what the hate do
Even though we made you
Niggas done started something
If you try to play me crazy (crazy)
Niggas done started something
If you try to play me crazy (crazy)
Niggas done started something
