

## The Hope

Fabulous

Don't make me put one of y'all in the grave  
I'm playing with money, y'all niggas save  
The pain I'm a cause is something y'all couldn't face  
A couple niggas shot cause one of y'all niggas brave  
Rushing him to the ER, rushing me to the stage  
This The Soul Tape 3, nothing we need to say  
Leave the handguns at home, fuck 'em, just bring the K's  
For the homies in the county with nothing that's eating trays  
Since I started eating my motto is eat away  
Top 5 is always followed by DOA  
Thought I was on top when I bottled a key of yay  
Then I went straight from the block to the VMA's  
The way the hands move on the clock you'd be amazed  
You just feel the burn, nigga. you don't see the blaze  
Take a good look at my eyes, you see the haze  
Right left, life or death, either way  
Same tough guys will cry when they see you laid  
Never show your hand, they dying to see your spades  
I'm married to the game, you dying to get engaged  
You only gangster when the lions is in the cage (coward)  
Your life's worth nothing, the goons had it appraised  
I might do the ray for maroon with the beige  
Bad bitch with me, Louie with the shades  
If you ain't self employed than truly you a slave

Tooly to your waves, brain on your winter coat  
Niggas burning bridges then expecting you to send a boat  
If I'm coming at your neck think a bullet in the throat  
Never gone forget you niggas, got 'em written in my notes  
I'm a send the goons, a snitch gone. send the folks  
They gone kill you just cause, don't make me send the locs  
New blue hundreds spending c-notes  
Fresh pair of Timbs, vintage pea-coats  
I'm a stand up nigga, never been a joke  
Riding since pedal bikes with reflectors and the spokes  
I snuck up from behind, put the game in a yolk  
You apply a little pressure and them rookies finna choke  
Niggas looking washed up, it's something in the soap  
You looking like Adrien Broner in the ropes  
My shoes is 2 racks, I should be in the slopes  
Might come through in bubble same way they send the pope  
Parading down 5th Ave like I'm in a float  
That new H50 push button like remote  
Control is hard to have, especially when you broke  
They sleeping because they eating, but you hungry and you woke  
Shorty mouth wet, but her strength is in the stroke  
Greatest of all time so her name has been the goat  
She say you got the people waiting for it then it's dope  
The game is fucked up, but if you back then it's hope, nigga
