Fabulous

Sometimes it can't even be said
Sometimes it just gotta be felt
Gotta feel beautiful
Yeah

I think Tulum might be the motion
Book the jungle villa got the room right by the ocean
Streets been dry baby I thought you might need some lotion
The sun off of that brown skin light moonlight off the ocean she said
I heard a rumor you're emotionless
I said you tryna listen to them rumors or the ocean bitch?
Where you wanna be?
The shade room or in the ocean bitch?
Sippin casamigos in a room with Danny Ocean bitch
Wavy nigga
Way I move will have you motion sick
Life has been a movie every move I makes a motion pic
I like that homebody
With a little bit of motion chick
The loyal ones that keep they waist slim and they devotion thick
Pretty ones, with low followers
Barely postin pics
No only fans pages

They say you gotta be beautiful to keep your hair uptied
Only up for them

Tuluminati
Want my mind soul and my body
Broke goat
Mind sucked the soul out my body
Stuck to mind like the soul food do your body
Stuck in mind that my soul mate was a thottie
Deep in mind like them coworkers
You can't be a boss bitch fucking coworkers
People won't respect you if you don't respect yourself
You can't check nobody if you can't check yourself
If them niggas feel a way
They better check they health
I got a flight to catch and these bags ain't gon check they self
My lug is Goyard
These bags supposed to check itself
Before I check with anybody dawg
Gotta check with self
