

## Self-Determined

Face to Face

I don't care, you don't care  
We aren't going anywhere  
Any time, any place  
We're not running in this race  
Set yourself apart and be yourself  
Cause you're like no one else  
So they say it's okay  
We're all well on our way out

Standing in the way  
Keeping us at bay  
Remember what we used to say

We're deafened by the sound  
Raise your voice and shout (hey hey hey!)  
Until there's no one left around  
Am I getting somewhere?

I'm afraid that you're afraid  
That you might make a big mistake  
So here's a point you miss the point  
But I'm okay and you're okay  
Set yourself apart and be yourself  
Cause you're like no one else  
So they say don't delay  
We're all well on our way out

Standing in the way  
Keeping us at bay  
Remember what we used to say

We're deafened by the sound  
Raise your voice and shout (hey hey hey!)  
Until there's no one left around  
Am I getting somewhere?

Standing in the way  
Keeping us at bay  
Remember what we used to say  
Becoming our cliché  
And holding yesterday  
So close that we can't break away
