

## Bastards of 07

Faces are Fiction

We always stick together when push comes to shove  
We keep the same wave of friendship  
From problems with the law to countless enjoyed shows  
fill bong with pieces of bullshit

four hundred twenty years on the road  
We've got the spirit of nightlife  
"Piss drunx crew" in the chaos of sacred nights  
Come closer and I'll show you our life

We came as complex, one beast, one soul, we are family  
we are kids of the piss of this era  
every minute with friends is used to the fullest, bitch!  
Feel like the whole in war, piss drunx army

The bunch of freedom and liberty  
Walking in to random squaer's bars  
Groupies and alcohol after dark  
never forget dirty bastards

One hour, one week, one month, forever watch  
I wish I don't care about the time  
I do not care about days and nights

when we're together here or there, everywhere  
do not watch the time  
do not watch the days  
always everywhere

do not forget anymore!
