

# Temptation

Fact

This signal and my heartbeat are the same rhythm  
Rhythm and temptation running through my body  
Do you follow the same beat as me?  
Can you feel it? Is the beat only for me?  
This signal and my heartbeat are the same rhythm  
Rhythm and temptation running through my body  
Gave you my heart and now I'm controlled  
I'm not afraid to turn away and stop it all

(A signal never stops pounding my head)

It takes all of my thoughts  
I see someone I don't expect  
They whisper something in my ear (Something in my ear)  
They want me to turn my head  
Go to places I don't want to  
At a loss, what am I to do? (What am I to do?)

What do you wish for? No matter how I try  
I cover my ears up  
It is no use at all  
I can't escape to anywhere  
What do you wish for? No matter how I try  
I cover my ears up  
It is no use at all  
I can't escape from them  
I can't escape from them

My shadow flies somewhere and I'm alone  
In darker skies where no light can reach me

Give you my heart  
Give you it all  
Give you my heart  
Give you it all  
Give you my heart (Gave you my heart)  
Give you it all (Gave you it all)  
Give you my heart (Gave you my heart)  
Give you it all (Gave you it all)
