

Stand Up

Fad Gadget

Get up little girl, stand your ground
Don't let those silly bully boys push you around
If the doors slam in your face just kick them down
Watch those clockwork penguins all frown
Dreamers cannot beat
Stand on your own two feet
Stand up
Stretch and grow my darling, reach for the stars
Out on Battledress babe, there'll be battle scars
Look at me I'm always complaining, seems I got it wrong
But now I'm sick of hearing that same sad song
Only fools will admit defeat
Stand on your own two feet
Stand up
Dreamers cannot beat
Stand on your own two feet
Stand up
