

## Join Us

Faderhead

She looked at me with a smile full of evil  
And with eyes full of lust  
She said the night is still young and there's lots to do  
She said "Join us!"

Friday night, playtime  
Start of the storyline  
Saw this girl, superheat, definition of divine  
Grab a drink, gotta think  
Fuck it, I will just say "Hi!"  
She's with friends who are fans  
Seems that I'm in luck tonight

She said "Join us!"

4am, night is young  
Bathroom break, tongue is numb  
Beat hard, floor filled  
Big dumb fun thrill  
6am, sun is up  
Headed out of the club  
All her friends wanna split  
Afterparty, I can't quit

She said "Join us!"

The night was a blur  
Of drinks, drugs and memorygaps  
We got out the club  
With eyes like Google maps
