

## Let Me Go

Faderhead

Little shadows moving  
On the bedroom wall  
Staring at me while you sleep  
Can't you see them at all?  
Little voices whisper  
When the curtains fall  
Always talking when you sleep  
Can't you hear them at all?

If I said I was healed would you let me go?  
If I said I was safe would you let me?  
If I said I was healed would you let me go?  
Would you let me?

Always one too many  
They say that three's a crowd  
What to do when no one's home  
And the lights are fading out  
Always someone better  
To be found in town  
What to tell an empty heart?

When the lights are fading out ...
