

No Time to Sleep

Faderhead

e love the situation
But we are drained
You've never known the feeling
It feels insane
We've come to serve the demons
Inside of me
And we blast everything away

Come on!
No time to sleep!

We love the detonation
And all the fame
You'll never know the feeling
Your life is tame
We've come to serve the dreamers
The ones we meet
And we blast everything away

This ain't the time for going home
This is the time to keep it going on
