

O/H Scavenger

Faderhead

Dissipate at the gates
Let the water in
Uncontrolled, so much more
Like it's never been
Bend your back, caving in
Are you gonna break
Open cell private hell
Every single day

See myself as my walls fall
Look inside because I disintegrate
See myself as my walls fall
Locked inside with the O/H Scavenger

Cold and black, freezing air
Feel the deep inhale
Down and out, down and bound
All you have's for sale
Inner self walking out
Hard to recognize
Now you're drowning in my wake
Like a butterfly
