

Is this the pain that has come and has built my prison?
Is this the pain that has come to build all my fears?
I like to think it has stripped me of all my secrets
I'll never know what is left to erase in here
But I can find you

In hell
Insane
Sick city rules today
When 1+1 is 3
I found a home for me

Is this the game that has come and has built the system?
Is this the game that has come to build all the gears?
I like to think it has stripped me of all my glory
I'll never know what is left to erase in here
But I can find you

I've been holed-in somewhat
Holed-in somewhat
Right here
