

The Beat Has Started

Faderhead

Friday night at 10 pm now the weekend's started
Left the normal world behind join in the departed
Let the substances control you for world retarded
Move your body to the beat cuz the beat has started
Lets the subs command your soul as you hit the floor
The distortion in your ears makes you stay for more
Cannot leave before the end let the hormones soar
Cuz the beat has started
Take a break and enjoy the scene as you scan the crowd
Now the beats have turned surreal what its all about
Will this ringing in your ear leave this world retarded
Move your body to the beat cuz the beat has started
Lets the subs command your soul as you hit the floor
The distortion in your ears makes you stay for more
Cannot leave before the end let the hormones soar
Cuz the beat has started
