Don't Keep Me Waiting

Fair Warning

Silence turns my heart into the night
Visions of the past begin to rise

I'm tired of looking back – it feels like wasted time
I just can't wait to leave it all behind

Don't keep me waiting – Don't let me stand here on my own
I learned the truth, that drives my soul's desire
Don't let it end here – I just can't make it all alone
My heart's on fire – My heart's on fire

Driving through the wastelands of my mind
Mysteries and dreams, I left behind

I'm tired of looking back – those days are dead and gone
My heart, it just can't wait to carry on

Don't keep me waiting – Don't let me stand here on my own
I learned the truth, that drives my soul's desire
Don't let it end here – I just can't make it all alone
My heart's on fire – My heart's on fire

Solo

Don't keep me waiting – Don't let me stand here on my own
I learned the truth, that drives my soul's desire
Don't let it end here – I just can't make it all alone
We'll rise up high, we'll touch the sky
with hearts on fire – with hearts on fire
