

## Step by Step

### Fairport Convention

Just where the sea meets the sky  
A place we always go  
Clouds floating gracefully by  
Over shades of aquamarine flow

Let those cares drift away  
Bring some ease into your mind  
Let this be here today  
Step by step your hand in mine

Butterflies breeze through the fern  
The wind is gentle in your hair  
This is the calm our hearts yearn  
Faith in this magic cliff top air

Let those cares drift away  
Bring some ease into your mind  
Let this be here today  
Step by step your hand in mine

Then when the tide here has turned  
Another place calls for us to share  
We'll savour this moment and then  
Carry the joy everywhere

Let those cares drift away  
Bring some ease into your mind  
Let this be here today  
Step by step your hand in mine

Let those cares drift away  
Bring some ease into your mind  
Let this be here today  
Step by step your hand in mine  
Step by step your hand in mine
