

Legacy

Faith Evans

"Ummm, one of the most talked about parts of your life, your relationship with faith. How are things?

I mean, We ain't together no more, she just had a baby from me, we cool though, we tight"

It's that Faith Evans right here
Biggie Smalls, hey Faith you ready? You ready?

Venue after venue, I been through
Come up to the telly so I could bend you
Send you to the store, condoms and more
Jealous females call you sluts and whores

Seems like yesterday we used to rock the show
I laced the beat, you locked the flow

Could it be my hardcore metaphor
Make sweat pour on the bedroom floor
Open up the Lex door
Jump on in, I'm kind of tired
I'm a roll blunts while you spin

You twist up while I whip the bourbon
You teach me while I'm steady learning like

You got your license, right? Alright, no swerving
Hair blonde out, Madonna style like a virgin
Niggas see the ring, baguettes to death
She looking for a man, honey he just left

And I knew..
I knew from the very first moment
That you were a king fit just for a queen
And I can tell from day one you were for me
Who know that this love be the legacy

And I'm so happy to say that I know you
My whole life was changed instantly
And I was willing to play my position, yeah
When you made my wife to be
You are here by my side
Through all the changes
We've been through everything
So far from strangers
You more like my best friend
My perfect angel
I rock you till the end
I love you till the end

I knew from the very first moment
That you were a king fit just for a queen
And I can tell from day one you were for me
Who know that this love be the legacy

Grand Marnier increase the don strength
Two four-fifths within my arms length
With a calm breath I say we gots to float

Throw Little Cease the keys to the boat
Tongue all down her throat, you know the routine
Got my dick large like Bruce Springsteen
I invite those girls that smoke lye
Keep it real with you
You keep it real with I
We be tight like frog's ass
Have you screaming "Biggie, Biggie give me one more chance"

I knew from the very first moment
That you were a king fit just for a queen
And I can tell from day one you were for me
Who know that this love be the legacy

You are here by my side
Through all the changes
We've been through everything
So far from strangers
You more like my best friend
My perfect angel
I rock you till the end
I love you till the end

Sometimes I get caught up imagining
The way things could've been
And there's no way that we can press rewind
We can't go back, we can't turn back the time
No, no, oh we can't turn it
We can't turn back the time
(No we can't turn back the time)
We can't turn back the time

You know, we gunna always be together 'cause you know, we got a little story
together
