

# Really Wanna Do

Faith Evans

Here we go  
I can't hear myself  
Yeah yeah yeah  
Yeah yeah yeah yeah (Yeah yeah yeah yeah)  
Woo woo woo, yeah  
Can you hear me? Yeah

All I really wanna do, is uh you  
I'm gonna turn you out, show you what it's all about  
All I really wanna do, is uh you  
Baby, we can take a ride, I might let you come inside, baby

I don't know what it is about your lovin', boy  
But the way you put it down makes me coming back for more  
'Cause you got me thinkin', thinkin', thinkin' 'bout ya  
It's like I can't live without ya  
The way you got me shook up on your love, oh boy

All I really wanna do, is uh you  
(Baby, all I wanna do)  
I'm gonna turn you out, show you what it's all about  
(Oh yeah, show you what it's all about)  
All I really wanna do, is uh you  
Baby, we can take a ride, I might let you come inside, baby

I get chills up my spine every time you touch me, boy  
Since you came and shut it down with that thing I can't ignore  
'Cause you got me thinkin', thinkin', thinkin' 'bout ya  
It's like I can't live without ya  
The way you got me shook up on your love, oh boy

All I really wanna do, is uh you  
(All I wanna do)  
I'm gonna turn you out, show you what it's all about  
(Show you what it's all about)  
All I really wanna do, is uh you (Oh yeah)  
Baby, we can take a ride, I might let you come inside, baby

Oh baby, but you know  
You gotta put your emotions to the side  
We can be friends with benefits  
I hope that you can handle it  
(Tell me, can you handle this?)  
I'm not trying to fall in love with you  
(I know I really don't wanna fall)  
I just hope that we can play it cool  
(I just hope that we can play it cool)

All I really wanna do, is uh you  
I'm gonna turn you out, show you what it's all about  
(Show you what it's all about, baby)  
All I really wanna do, is uh you  
Baby, we can take a ride, I might let you come inside, baby

Oh, oh, uh, yeah, uh  
Said I really wanna, really wanna, really wanna ... you  
Said I really wanna, really wanna, really wanna ... you

Oh boy
