

Sometimes

Faith Evans

Mom, I'm telling you, this relationship business
You ain't tell me it was so hard
Sometimes I just wanna give up, really
Well you know baby

Sometimes in love you gotta take the hurt, you gotta take the pain
Sometimes in love you gotta take a break, gotta get away
But things gonna get better
If you stick together
Your love will survive

We've been through so many changes
Seems like lately all we do is fight
Took a vow that we would make it but I've been having some doubts
And you've been having some doubts, babe

I know that I love you and I
Know that I don't like you all the time
Just two people tryna make it through
The hard times and the doubt
But we gon' figure this out baby

Sometimes in love you gotta take the hurt, you gotta take the pain
Sometimes in love you gotta take a break, gotta get away
But things gonna get better
If we stick together
Our love will survive
Stand up just a time

I know that sometimes I get on your nerves
And you know that sometimes you say s**t that hurt
If we're wanna make it, gotta stop and take a break
If we don't we'll lose all
Let's figure it out
All you gotta do is
Say it, do it, show it, prove it
When your heart is low
I need a good man to fill me up
All I need is a good man to give me love

Sometimes in love you gotta take the hurt, you gotta take the pain (Sometime
s in love)
Sometimes in love you gotta take a break, gotta get away
But things gonna get better
If we stick together
Our love will survive
Stand up just a time

Sometimes in love you gotta take the hurt, you gotta take the pain (Sometime
s in love)
Sometimes in love you gotta take a break, gotta get away (you gotta take a b
reak)
Stand up just a time
Sometimes in love you gotta take the hurt, you gotta take the pain
If we're wanna make it, gotta stop and take a break
If we don't we'll lose all
Let's figure it out

Sometimes in love you gotta take the hurt, you gotta take the pain (Sometime
s in love)
Sometimes in love you gotta take a break, gotta get away
You always showed me
Sometimes in love
If we don't we'll lose all
Let's figure it out
Sometimes in love you gotta take the hurt, you gotta take the pain
Sometimes in love you gotta take a break, gotta get away
Sometimes in love
If we stick together
