

# Black Friday

Faith No More

This is only a test

1, 2, what you gonna do?  
3, 4, 5, twistin' your arm and your eye  
You will buy

Step right up, donate a memory  
To the bank of love, you loan your daydreams

BUY IT! BUY IT!

Black Friday's come 'n gone

Buy me a future regret  
A shrink wrapped fantasy, that I'll wanna forget

In the age of the mercenary  
In the nursing home where river swallows the sea  
That's where we'll be, with guns

BUY IT! BUY IT!

Into the age of scrutiny  
And the grandest frappe  
Well I ain't gonna pay  
Trimming the tree, I can hang, I won't swing  
It's only a test

(3x):

I'll pry my seat  
From the children's graves  
Hear the angels sing

All the zombies walk on Black Friday

It's a riot at the salad bar  
Predatory lenders  
Safari mission is far but you paid for them  
To kill your mom

BUY IT! BUY IT!

Kill 'em now!!

This is only a test
