

# Disappeared

## Faithless

My heart was taken  
It was love at first sight  
I know in this day and age  
That makes me a fool  
But it's how I felt  
How I wanted it to be  
I watched you dance with others  
I wanted you to dance that way with me

But if I ask too many questions  
You just say that I'm obsessed  
It seems that the friends you don't fuck  
Are the ones you love the best

It seems that every time we get near  
You disappear

I'm told I gave my heart away  
On a wing and prayer  
People think I don't know about love  
Or how to find it  
I know enough about myself  
Not to care

It's only your thoughts I want to know  
Your understanding that I wish for

But it seems every time we get near  
You disappear

You disappear  
You disappear  
You disappear
