

## Find A Way

Faithless

We can find a way  
We can find a way  
We can find a way

I wish our worlds weren't so far apart  
Please know that you'll always be my star  
Even on nights when we struggle to balance  
All these galaxies in our hearts  
Even on days when we exist  
Like strangers living under the same roof  
With only love as our same truth  
From school bells to wedding ones  
Church aisles to shopping aisles  
My days will still never be complete  
Without your honest smiles

We can find a way  
We can find a way  
We can find a way  
We can find a way  
We can find a way  
We can find a way

I'll love you from every dawn to every dusk  
Until our flesh is no longer warm  
And our bones are buried dust  
'Cause in trust there is us  
'Cause in lust there is us  
Or even when your heart hurts  
On days everything when everything else comes first  
And we barely converse  
Know that somewhere in my silences are sentences  
Poems about the way your lips curve and your  
Hips swerved

We can find a way  
We can find a way  
We can find a way  
We can find a way  
We can find a way  
We can find a way

We can find a way  
We can find a way  
We can find a way  
We can find a way  
We can find a way  
We can find a way

We can find a way

We can find a way  
We can find a way  
We can find a way  
We can find a way  
We can find a way  
We can find a way
