Last This Day

Faithless

Lines to the skin That have seen Neither sun nor sin

Tubes to the mouth Cannot laugh or sigh Or even cry

A drop in the ocean
A second and all time
One stop in the endless sky

But you mean
The whole world to me
You're an island of light
So please last this day
Stay one more day
Please last this day
Stay one more day

Stay one more Stay one more Stay one more day

Just one more
Just one more
Just one more day

All this madness around us You are knowing And so still

You were made in love Grew in hope Were born in pain

You have them running round Trying to make you breath again

One tiny link
In and endless chain

But you mean
The whole world to me
You're an island of light
So please last this day
Stay one more day
Please last this day
Stay one more day
Please last this day
Stay one more day
Stay one more day
