Casket Garden

Fall of Serenity

Inherit the nightmares – can't put them to sleep
Rainstorm of chaos awaiting release
Speaking the truth – considered a crime
A world with murder on its mind
Believe; be deceived – a wound never closing
We're racing the rats – humanity's losing
Under the gun of a nation imploring
Machine infected system controlling
In the casket garden
Bonewhite, bloodred
In the casket garden
Dealing with the dead
The blaming days are over – too late
Falling into the arms of hate
Witness the execution of mind
Feeding another killing kind
In the casket garden
Bonewhite, bloodred
In the casket garden
Dealing with the dead
In the casket garden
Spiders in the web
