

Masters Of Chaos

Fall of Serenity

we slaughtered god, we killed the devil
satan begged for mercy and god cried for help
angels fell to death, struck down by our claws
demons tried to hide, but could not flee their fate
we crushed dimensions, burned the worlds
time is just a word, we bend and twist reality
this is the end of the world as you know it

point a gun at your head- pull the trigger
we await you on the other side
join our ranks of immortal fame
and kill some gods with us
warriors of the void- nothing is holy
souls are worthless, we have no masters
time is just a word, we bend and twist reality
this is the end of the world as you know it

join us, join the immortal
we are the masters of chaos
we don't need no leader
we don't need a guiding light
we will march eternally
we will be the end
