

# Dear Future Self (Hands Up)

Fall Out Boy

Hands up, ready for the boom  
Never mind the rocket launcher, talking 'bout a tune  
You can hear us comin' with the zoom  
Listen to the "Boom, boom," we are breaking through

We prepared for the turbulence  
But there's no preparing for this  
Got paid on Tuesday, but I'm still broke when the weekend ends  
Another trip around the sun, it was a good run  
Just mixing all of my prescriptions with my problems  
Yeah, streets are full of seasons  
Saw what they did to Jesus  
Dude'll kill you for no reason, and charge you for treason  
I know this one for a fact  
My phone they got it on tap  
'Cause every time I'm talkin' I can hear them in the back (Hands up)

Hands up, ready for the boom  
Never mind the rocket launcher, talking 'bout a tune  
You can hear us comin' with the zoom  
Listen to the "Boom, boom," we are breaking through  
Hands up, ready for the boom  
Never mind the rocket launcher, talking 'bout a tune  
You can hear us comin' with the zoom  
Listen to the "Boom, boom," we are breaking through

She windin' like she losing her mind, yeah  
She windin' like she losing her mind, yeah  
She windin' like she losing her mind, yeah  
She's windin' like she losing her mind, yeah  
Knock, knock, knock, knock, who is it? (Hands up)

She said this is a surprise visit  
It's my fantasy I'm gonna live it  
Hands up, and don't you refuse it  
I wanna tattoo you on me  
Just look what you created  
Dear future self, I hope it's going well  
I'm drunk on cheap whiskey in an airport hotel, yeah

Hands up, ready for the boom  
Never mind the rocket launcher, talking 'bout a tune  
You can hear us comin' with the zoom  
Listen to the "Boom, boom," we are breaking through  
Hands up, ready for the boom (Hands up, hands up)  
Never mind the rocket launcher, talking 'bout a tune (Talking 'bout, talking 'bout)  
You can hear us comin' with the zoom (You can hear us comin' with the)  
Listen to the "Boom, boom," we are breaking through

She windin' like she losing her mind, yeah  
She windin' like she losing her mind, yeah  
She windin' like she losing her mind, yeah  
She's windin' like she losing her mind, yeah  
Knock, knock, knock, knock, who is it?

Hands up

You can hear us comin' with the zoom  
Listen to the "Boom, boom," we are breaking through  
Hands up, ready for the boom
