

# Lullabye

Fall Out Boy

Honey is for bees, silly bear  
Besides, there's jelly beans everywhere  
It's not what it seems in the land of dreams  
Don't worry your head just go to sleep

It doesn't matter how you feel  
Life is just a Ferris wheel  
It's always up and down  
Don't make a sound

When you wake up the world will come around  
When you wake up the world will come around

It's just the sweet weather and the peacock feathers  
In the morning, it will all be better  
It's not what it seems in the land of dreams  
Don't worry your head just go to sleep

When you wake up the world will come around  
When you wake up the world will come around

Honey is for bees, silly bear  
Besides there's jelly beans everywhere  
It's not what it seems in the land of dreams  
Don't worry your head just go to sleep
