

Oh, oh, oh-oh [x4]

Something make my chest stir  
Something make my head blur  
(oh, oh)  
I'm not ready for a handshake with death, no  
(oh, oh)  
I'm just such a happy mess, whoa

The drums are four on the floor  
She's back to the bathroom for one more

I'm the invisible man  
Who can't stop staring at the mirror, at the mirror

I want to make you as lonely as me  
So you can get, get addicted to this,  
You can get, get addicted to this now

Oh, oh, oh-oh [x4]

It's three drinks too late to talk to anyone but myself  
(oh, oh)  
It's a three-and-two pitch to walk to anywhere-else, no

The drums are four on the floor  
She's back to the bathroom for one more

I'm the invisible man  
Who can't stop staring at the mirror, at the mirror

I want to make you as lonely as me  
So you can get, get addicted to this,  
You can get, get addicted to this now

Oh, oh, oh-oh [x4]

I'm the invisible man  
Who can't stop staring at the mirror, at the mirror

I want to make you as lonely as me  
So you can get, get addicted to this  
You can get, get addicted to this now

I'm the invisible man (I'm the invisible man)  
I'm the invisible man (I'm the invisible man)  
I want to make you as lonely as me,  
Cause I'm the invisible man

I'm the invisible man
