

Short, Fast and Loud

Fall Out Boy

She's shallow like the shoreline during low tide
But my hopes are not quite as high
Can't spot her faults but she spotted mine
She left me for herself
Considering I would too

Go figure, I'm bigger than that
Go figure, I'm bigger than that

The battles only halfway done
I might look young
But I'm no less defeated
How's the weather up there?

She left me for herself
Considering I would too

Good God I wish I was tall
Good God I wish
Good God I wish I was tall
Good God I wish
Good God I wish I was tall
Good God I wish
Good God I wish I was tall
Good God I wish

Go figure, I'm bigger than that
Go figure, I'm bigger than that
Go figure, I'm bigger than that
Go figure, I'm bigger than that
