

You're Something Else

Falling in Reverse

I-H-A-T-E you times three
I-H-A-T (Ha ha ha)
Oh!

Way too many times that I have let you get under my skin,
And swim your way up through my veins, into my heart again

I feel the pain with every bite
You take just like a parasite
Doctor, where's my medicine?
It's time to cure this mess I'm in

Someone get me to a church
Call the priest to lift this curse

No looking back, I have had enough
I wave goodbye with my middle finger

I-H-A-T-E you times three
You're something else, you're something else
And I-H-O-P-E you will see
That you need help, you need help

Now you're scared and ill-prepared for my heart's revenge
Without a doubt I'll dish it out by fucking all your friends

Someone call the doctor, please
Tell him to cure my disease

No looking back, I have had enough
I wave goodbye with my middle finger

I-H-A-T-E you times three
You're something else, you're something else
And I-H-O-P-E you will see
That you need help, you need help

I-H-A-T-E you times three
I-H-A-T-E you

I-H-A-T-E you times three
You're something else (you're something else)
You're something else (you're something else)
And I-H-O-P-E you will see
That you need help (that you need help)
You need help (that you need help)

I-H-A-T-E you times three
You're something else (you're something else)
You're something else (you're something else)
And I-H-O-P-E you will see
That you need help (that you need help)
You need help (that you need help)
