

Death Worship

Fallstar

I was born to rage
I was born to crush kings
I am the donkey that kicks into the stomach of hate

Raised in love
I was meant to keep the peace
I won't stop until the viper's head caves under my feet

This is my salvation song, man
Injustice anywhere is injustice for all
This is my redemption song, yeah
When violence is justified it's nothing but a mouthful of piss (piss, piss, piss)

All my life I've been part of a voice you try and silence, but it's never enough
I hear the song in my family and friends
I hear the people of the world wake up

I see war
You feed me war all the time
I don't believe the lie that the violent survive
Blessed Jesus, I will follow
I've learned to fight for the rights of all men and the poor

But there's a shaking in my brain
I'm just one man among the millions
Sing, I'm part of one voice that sees we can build a new world
Pigs, presidents, kings
Slip into shadows and bury the truth in your filth

I bite the hand that feeds me war
I bite the hand that feeds me war

All my life I've been part of a voice you try and silence, but it's never enough
I hear the song in my family and friends
I hear the people of the world wake up

All my life I've been part of a voice you try and silence, but it's never enough
I hear the song in my family and friends
I hear the people of the world wake up

Death worship
Who is this god that delights in violence?
Death worship
Who is this god that destroys the weak?
So spirit lead us to a love without borders

All my life I've been part of a voice you try and silence, but it's never enough
I hear the song in my family and friends
I hear the people of the world wake up

All my life I've been part of a voice you try and silence, but it's never enough

I hear the song in my family and friends
I hear the people of the world wake up
