

# Love Like This

Fallstar

My heart cannot find peace  
Its ripping through my chest, I, For so long  
Have needed something from you  
Only you can give, Strain,  
My bones are breaking

And this will tear you apart

We scrape away at who we are to fill this void, but we both know  
That I cant supply you  
Our hearts are dry, our stomachs growl, our souls scream more,  
more, more  
But you cant satisfy me

Is this love, I want love  
And is this wrong  
Is this her, I love her  
But, maybe its you

And all I know is you  
I know that you will fill me  
This is all too much, is this the end  
I feel I am choking on despair

We scrape away at who we are to fill this void, but we both know  
That I cant supply you  
Our hearts are dry, our stomachs growl, our souls scream more,  
more, more  
But I, I cant care

Is this love, I want love  
And is this wrong  
Is this her, I love her  
But, maybe its you

(Breakdown!!!!)  
I, I need something from you  
For so long that, Im choking

Silence voices  
Cover noises  
I realize that all I can do is just wait for you  
Just wait for you  
Just wait for you
