

# Write My Name in Gold

Fallstar

Over all the hills I can hear it  
I venture to the bottom of the ocean  
Looks we've gone far into the unknown  
So just write my name in gold, write my name in gold

Show me what it looks like after it  
Tell me of a way to get over it, over it  
Looks we've gone far into the unknown  
So just write my name in gold, write my name in gold

Dirt and the dust, I buried my blood  
To the one who came to conquer  
To the one who crushed our state but not our will  
Did you think we wouldn't fight back  
Did you think we wouldn't fight back  
I can hear you justify your beliefs in war you call it love  
I know God above us sees me and I know that he hasn't forgotten  
My pain, my people, my struggle, my cries

Coming from the mouths of the smallest ones to fortify the bones of the weaker ones  
Looks we've gone far into the unknown  
So just write my name in gold, write my name in gold

This is what it looks like after it  
This is all we needed to get over it, over it  
Looks we've gone far into the unknown

So just write my name in gold, write my name in gold

I dream of a day when my people are one all under the Sun  
Where the wealth of some becomes the wealth of all  
Where the sick and hungry are the fed and clothed  
We speak into your mind, we speak into the future  
We have everything we need, there is no scarcity  
Yeah our next step in evolution is to live in peace  
There is no other alternative, there is no other way

So you can go, I'll never say goodbye  
I couldn't save your life, I couldn't save it if I tried  
So go, I'll never say goodbye  
I couldn't save your life, I couldn't save it if I tried

This is what it looks like after it  
This is all we needed to get over it, over it  
Looks we've gone far into the unknown  
So just write my name in gold, write my name in gold

This is what it looks like after it  
This is all we needed to get over it, over it  
Looks we've gone far into the unknown  
So just write my name in gold, write my name in gold
