

# Mindless Omnipotent Master

Fallujah

Perpetuated system outside our control  
Built to uphold our reign  
Its methodical pace is now self-sustained  
Soulless, hulking mechanical beast  
Driven by impulse, desire and greed  
Voracious organism  
Enslaving and devouring our young

Human progress  
Advancing the process of mindless machines  
Creating the new ruler supreme  
A culture desensitized  
Violent visions entering your mind  
Adapting yourself to survive

Its computations compel you to obey  
Industrial motion of optimal escape  
Helpless to reverse this unstoppable decay  
Of individuality

Feeding with its roots delving deep  
Vines from the seed we have planted  
Now constricting and killing us faster  
The child of our creation  
Our mindless omnipotent master

Personified horror, alive  
Corrupting parasite

Blind and depraved  
Unholy savior  
Free will erased  
Creator becomes the enslaved

Colossal design, destined to subjugate  
Conquer and override  
The sequence of mortal lives  
Degeneration of all mankind
