

# Bloodline

Fallulah

I have my father's mind  
I got his OCD  
I'm stubborn like a child  
It's what he left for me

I have my mother's legs  
They're strong and running free  
And when I break down they're built to carry me

My grandma was my home  
She's always care for me  
Peeling up oranges  
Apples and pears for me

And now she's getting old  
Her pain is on repeat  
The day she let's go  
I'll cry myself to sleep

All these lives are happening again  
All these lives are running through my veins

Head to head  
And heart to heart  
My love for you is running in my blood  
(Don't you know, oh don't you know it?)  
Head to head  
And heart to heart  
My love for you is running in my blood  
(Don't you know, oh don't you know it?)

Uh uh uh  
Don't you know, oh don't you know it?  
You're living in my bloodline  
Uh uh uh  
Don't you know, oh don't you know it?  
You're living in my bloodline

She has her father's eyes  
They're pretty pools of blue  
She's got her own mind  
And my sweet dance moves

If I ever let her down  
I hope she understands  
My love is solid  
I do the best I can

All these lives are happening again  
All these lives are running through my veins

Head to head  
And heart to heart  
My love for you is running in my blood  
(Don't you know, oh don't you know it?)  
Head to head  
And heart to heart

My love for you is running in my blood  
(Don't you know, oh don't you know it?)

Uh uh uh  
Head to head and heart to heart  
Don't you know, oh don't you know it?  
You're living in my bloodline  
Uh uh uh  
Head to head and heart to heart  
Don't you know, oh don't you know it?  
You're living in my bloodline

Ah ah ah ah ah ah ah ah

Head to head  
And heart to heart  
My love for you is running in my blood  
Head to head  
And heart to heart  
My love for you is running in my blood  
Heart

Head to head  
And heart to heart  
My love for you is running in my blood  
(Don't you know, oh don't you know it?)  
Head to head  
And heart to heart  
My love for you is running in my blood  
(Don't you know, oh don't you know it?)

Uh uh uh  
Head to heart and head to heart  
Don't you know, oh don't you know it?  
You're living in my bloodline  
Uh uh uh  
Head to head and heart heart  
Don't you know, oh don't you know it?  
You're living in my bloodline
