

Broken Soldier

Fallulah

Run your hands down this unknown land
Take a trip and then say you understand my heart, my heart
Read my lips with your finger tips
I loosen my grip on these crashes in my heart, mmm

Time and time again
I'm looking for a friend
Why don't I see myself when I'm standing right here?

My heart, my heart, my heart is a broken soldier
My heart, my heart, my heart needs a friendly shoulder
My heart, my heart, my heart is a broken soldier
My heart, my heart, there's so much I never told ya

My heart, my heart, my heart is a broken soldier
My heart, my heart, my heart needs a friendly shoulder
My heart, my heart, my heart is a broken soldier
My heart, my heart, there's so much I never told ya

Drag my feet like a synco-beat
Feel the hard concrete building up round me like walls, walls
Then you come with your heart undone and your open arms
But I can't seem to break down my walls, mmm

When I run away
I know that I should stay
Face my face today
Come what may

My heart, my heart, my heart is a broken soldier
My heart, my heart, my heart needs a friendly shoulder

My heart, my heart, my heart is a broken soldier
My heart, my heart, there's so much I never told ya

Da da, da da, da da, da da da da da
Da da, da da, da da, da da da da da
Da da, da da, da da, da da da da da
Da da, da da, da da, da da da da da

Hey, hm
Hey, hm
I got a tick tock heart and it's winding me down
I got a tick tock heart and it's winding me down
I got a tick tock heart and it's winding me down
I got a tick tock heart and it's winding me down
I got a tick tock heart and it's winding me down
I got a tick tock heart and it's winding me down
I got a tick tock heart and it's winding me down
I got at tick tock, tick tock, tick

My heart, my heart, my heart is a broken soldier
My heart, my heart, my heart needs a friendly shoulder
My heart, my heart, my heart is a broken soldier
My heart, my heart, there's so much I never told ya

Da da, da da, da da, da da da da da

Da da, da da, da da, da da da da da
Da da, da da, da da, da da da da da
Da da, da da, da da, da da da da da
