

God Bless You

Fallulah

God bless you, God bless you
I don't believe in God but I believe in you
God bless you, God bless you
I don't believe in God but I believe in you

God bless you, God bless you
I don't believe in God but I believe in you
God bless you, God bless you
I don't believe in God but I believe in you

Took a wrong turn
Took a right turn
Took a left turn
Now you're concerned for your heartburn

You're my baby
Always will be
You're amazing
You're the glitter bit in the concrete

Don't believe in the voices
Questioning all of your choices
Now we found the oasis
Yes we found the oasis

God bless you, God bless you
I don't believe in God but I believe in you

Here we go

Nanananana, nanananana
(Now you're good to me, now you're good to me)
Nanananana, nanananana
(Now you're good to me, and I'm good to you too)
Nanananana, nanananana
Oh you're good to me
Nanananana, nanananana
Oh oh oh oh

Had a bad day
It's a mad day
But it's okay feeling every bone in your body
I'm your baby
Always will be
When you back me I'm the brightest star in the galaxy

Don't believe in their stories
Gossiping cause they're so boring
Now we found the oasis
Yes we found the oasis

Here we go

Nanananana, nanananana
(Now you're good to me, now you're good to me)
Nanananana, nanananana
(Now you're good to me, and I'm good to you too)

Nanananana, nanananana
Now you're good to me
Nanananana, nanananana
Oh oh oh oh

God bless you
All you need to know is I believe in you
In this crazy world we got nothing to lose
I got my love for you
God bless you, God bless you
We're the sun and the moon
We keep rising in the horizon
I got my love for you
Ahh ahh ahh ahh
God Bless You

Here we go

Nanananana, nanananana
Now you're good to me, now you're good to me
(Now you're good to me, now you're good to me)
Nanananana, nanananana
Now you're good to me, now you're good to me
(Now you're good to me, and I'm good to you too)
Nanananana, nanananana
Now you're good to me
Yeah you're good to me
Nanananana, nanananana
Oh oh oh oh
