

Hurricane

Fallulah

Everybody told me, that I'd better hurry
I should run and hide, but I don't want to
No, no, no

They say I must be crazy
But how with all the family
I'm so glad he finally left me alone
Yeah
I can hear it coming, feels just like I'm falling
In a trance and it taste so good
Come, come, come
The hurricane

It's wider than the ocean, higher than a mountain
Higher and bigger
Faster than a car and stronger than a lion
Stronger and bigger
It's gonna come and take me
I need to feel it, it's a higher power
And it will make me, it will make me
Stronger, yeah
Strong, strong, strong

All the dogs they're running
I raise my hand, I'm smiling
Please come closer and set me free
Set me free
Sky is spinning round, I'm begging
More, I need some more, bring it on

Standing the hurricane, pure energy
Flying in a chaos, I fly away
Gone, gone, gone
The hurricane

It's wider than the ocean, higher than a mountain
Higher and bigger
Faster than a car and stronger than a lion
Stronger and bigger
It's gonna come and take me
I need to feel it, it's a higher power
And it will make me, it will make me
Stronger, yeah
Strong, strong, strong

It's wider than the ocean, higher than a mountain
Faster than a car and stronger than a lion
It's gonna come and take me
I need to feel it, it's a higher power
Oh, oh, oh, oh, oh, oh, oh, oh

It's wider than the ocean, higher than a mountain
Higher and bigger
Faster than a car and stronger than a lion
Stronger and bigger
It's gonna come and take me
I need to feel it, it's a higher power

And it will make me, it will make me
Stronger, yeah
Strong, strong, strong
