

Sorry, I'm standing with your head in my hands
Look at my blade
Shiny and sharp, now do you wanna dance?

Gory, just like a movie I've seen
I watch them drown
A king and a prom queen that never got found

Don't go with me, don't go with me, don't go with me
Maybe you'll stay behind when I'm not asleep
I'm in too deep, I'm in too deep, oh is this real?
House on the hill where you go to get killed
House on the hill where you go to get killed

Fully, fully awake in a dream
I watch myself from the outside
Digging and hiding, I still hear their screams

Don't go with me, don't go with me, don't go with me
Maybe you'll stay behind when I'm not asleep
I'm in too deep, I'm in too deep, oh is this real?
House on the hill where you go to get killed
House on the hill where you go to get killed

Pulling me under, under
under my cover, cover
Pulling me under, under
under my cover, cover

Don't go with me, don't go with me, don't go with me
Maybe you'll stay behind when I'm not asleep
I'm in too deep, I'm in too deep, oh is this real?
House on the hill where you go to get killed

Don't go with me, don't go with me, don't go with me
Maybe you'll stay behind when I'm not asleep
I'm in too deep, I'm in too deep, oh is this real?
House on the hill where you go to get killed
House on the hill where you go to get killed

House on the hill where you go to get killed
House on my hill where you go to get killed
